

The Hermes Librarian — Brand Style Guide

Brand Identity, Visual Assets, CLI Integration & Usage Guidelines

The Hermes Librarian sits natively inside the Hermes ecosystem, providing persistent memory and context injection. This document outlines the official brand system, visual assets, typography, CLI skin configuration, and usage guidelines.

1. Core Architecture & Brand Naming

- **Repository / Package:** *hermes-memory* — Describes the technical mechanism.
- **Product / Brand Name:** *The Hermes Librarian* — Describes the functional role.
- **CLI Skin / Handle:** *hermes-librarian*
- **Package Installation:** *pip install hermes-librarian*

README Header & Taglines

Header: The Hermes Librarian — persistent memory & context injection for Hermes Agent, powered by Postgres + pgvector + Apache AGE.

- **Primary Tagline:** "The messenger never forgets."
- **Technical Tagline:** "Write → Index → Recall → Weed. The library that tends itself."
- **Kawaii / Native Tagline:** "Your filing cabinet that fills its own shelves."

2. Visual Identity & Iconography

All iconography centers around the classical Caduceus (two intertwining snakes with wings around a staff/scroll), representing communication, speed, and dual indexing (vector + graph).

Logo Variations

1. **Minimal Icon (32px / Favicon / CLI):** The Caduceus simplified as a scroll. Left snake represents vector similarity (dotted embedding); right snake represents graph edges (connected nodes).
2. **Primary Mark (README / Docs / Social):** Caduceus merged with an open book/scroll. Wings represent Hermes speed; scroll represents persistent memory. Use at 128px+.
3. **Official Seal (Release Stamps / Avatar):** Circular Greek meander border containing "HERMES LIBRARIAN • PERSISTENT MEMORY". Functions as a library checkout stamp.

3. Color Palette & Typography

Color Palette

Color Name	Hex Code	Usage & Description
Nous Gold	#DD8E35	Primary brand gold inherited from Nous branding
Librarian Gold	#C9A86A	Softer parchment gold for seals and accents
Lapis	#1A3A5F	Mythos deep ocean blue (secondary palette)
Parchment	#F7F3EB	Library paper background
Ink	#0D1117	Hermes dark terminal background
Vector Dot	#F5C518	pgvector representation
Graph Edge	#5B8DEF	Apache AGE graph lines
Weed Red	#8B3A2E	Drift detection and discard operations

Typography Stack

- **Headlines & Seal:** Cormorant Garamond or EB Garamond (Classical Greek inscription style)
- **Code & CLI Surface:** JetBrains Mono (Matches Hermes TUI)
- **UI & Documentation Body:** Inter (Clean, modern corporate body text)

4. Secondary Mascot Guidelines (Kawaii Owl)

The owl is strictly a secondary mascot—never replace the Caduceus as the primary mark.

Mascot Design Principles

Do's and Don'ts

- **DO:** Always use 2 snakes + wings + scroll/staff (Caduceus).
- **DO:** Use Nous Gold (#DD8E35) on dark backgrounds (#0D1117) and Lapis on light backgrounds (#F7F3EB).
- **DO:** Use the minimal icon at small resolutions (16–32px).
- **DON'T:** Use a single snake  (Rod of Asclepius / medical symbol), wingless staff, or book-only icon.
- **DON'T:** Use neon or pure yellow gold—stick strictly to warm amber Nous Gold.

5. CLI Integration & Skin System

Ship the custom skin configuration file with the repository at `~/.hermes/skins/librarian.yaml`.

```
None
name: librarian
description: The Hermes Librarian – gold + lapis, memory-aware
colors:
  banner_border: "#DD8E35"
  banner_title: "#F7F3EB"
  banner_accent: "#1A3A5F"
  context_bar: "#DD8E35"
spinner:
  thinking_verbs: ["cataloging", "shelving", "cross-referencing",
"recalling", "weeding", "indexing memory"]
branding:
  agent_name: "Hermes Librarian"
  response_label: " 📖 Librarian "
  tool_activity_prefix: "librarian:"
```

CLI Status Animations

Principle	Correct Application (Do)	Incorrect Application (Don't)	Why It Matters
Baby schema	Slightly oversized round head, large simple eyes, tiny body	Realistic owl proportions or adult-looking face	Triggers approach without competition; Caduceus
Softness	Fully rounded silhouette, soft wing curves	Angular wings, pointed beak, geometric body	Prevents clash with classical line work
Minimal detail	4–6 shapes total; eyes + head + body + sandals	Detailed feathers, textured plumage, complex shading	Keeps mark legible at 16–32 px
Small scale	≤ 32 px, always in a corner or status line	Large owl as hero element or equal weight to Caduceus	Preserves Caduceus as sole primary mark
Expression	Calm, mildly curious eyes; tiny neutral or soft smile	Wide grin, sparkles, blushing, exaggerated emotion	Matches serious, focused memory-system persona
Color	Inherits skin: amber #DD8E35 on dark, cream on light	Neon pink, pure white, or competing palette	Maintains brand coherence

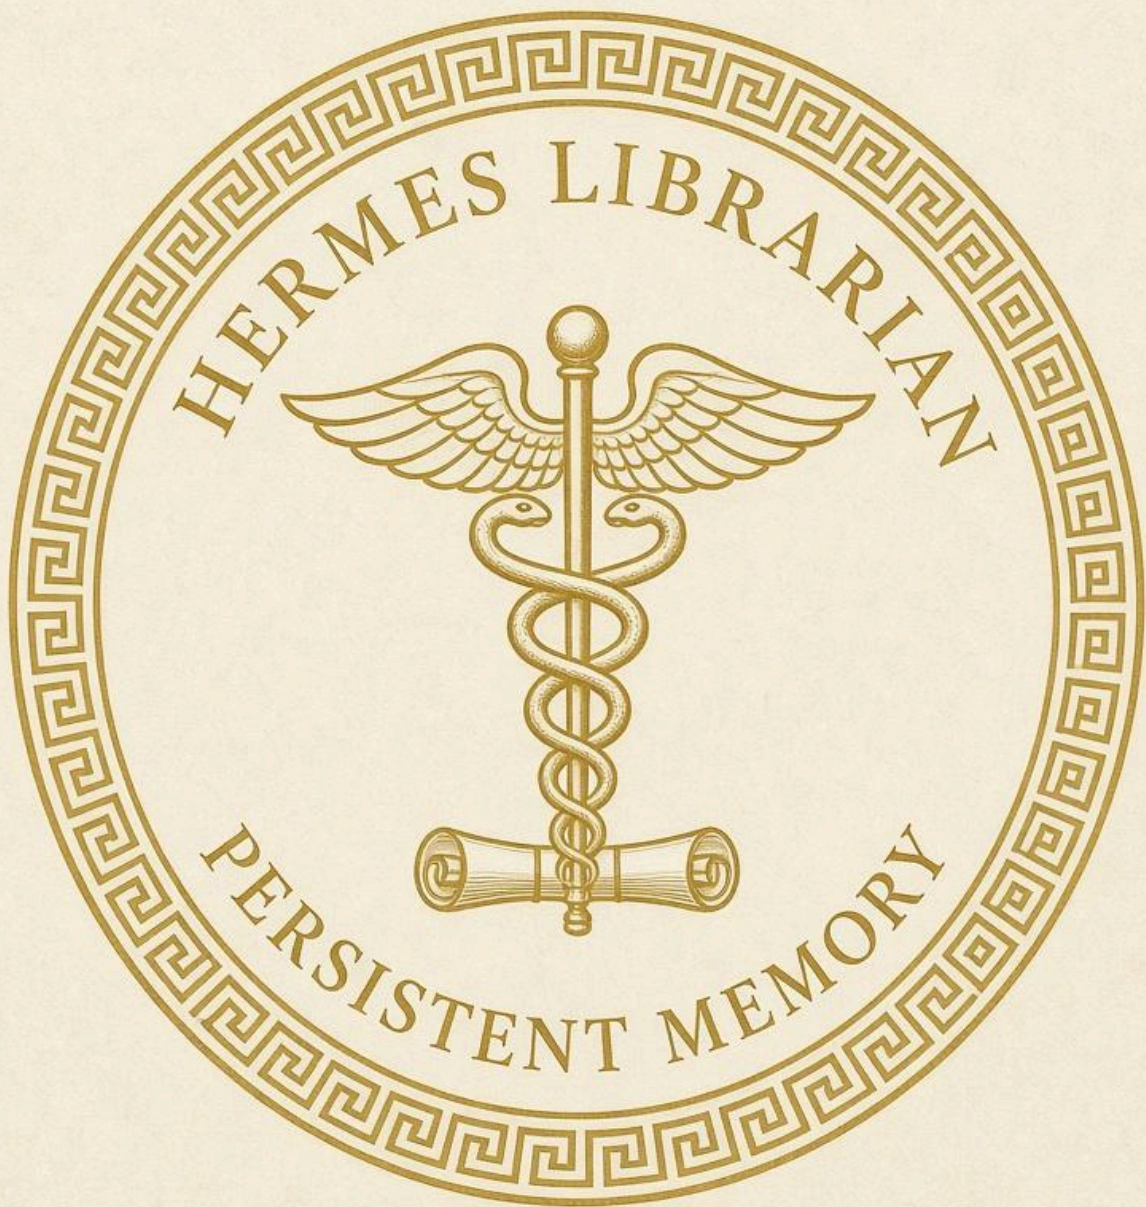

Principle	Correct Application (Do)	Incorrect Application (Don't)	Why It Matters
Pose	Sitting or gently hovering; one wing slightly raised	Aggressive flight, diving, or dynamic action pose	Signals "compa "protagonist"
Context	Appears only with Caduceus or as tiny CLI glyph	Used alone on seal, favicon, or primary logo lockup	Prevents brand fragmentation

Status / Verb	Recommended Animation	Frame Sequence	Notes
Idle / ready	Soft blink	 →  / → 	Minimal presen
Recalling / prefetch	Gentle wing flutter + pulse	 →   →  →  	Matches "recall
Cataloging / indexing	Page-turn motion	  →  →  	Embed path
Cross-referencing / graph	Two dots orbiting	 · →  · → · 	Vector + graph
Shelving	Brief placement	 →   → 	2–3 frames
Weeding / maintenance	Dust-off / leaf fall	 →   → 	Muted, soft
Injected / success	Satisfied blink + check	 →  ✓	One-shot confir
